About MI460 Digital Solution

GHANA

MI460 is a Ghana-based digital service brand helping hotels simplify daily operations. We provide smart hotel management and online booking systems that make operations faster, easier, and more profitable.

Our mission: Make digital technology simple and affordable for every hotel in Ghana.

The Operational bottleneck of Manuel Systems.

Booking Chaos

Double reservations and booking errors from handwritten records

Lost Information

Missing guest details and misplaced records create confusion

Financial Blindness

No clear tracking of daily or monthly income and growth

Accountability Gaps

Staff handling money without proper oversight or records

Example: A hotel with 20 rooms using a notebook system may not know how many rooms were sold today or how much income was collected until the next morning.

The hotel's reliance on a manual notebook system for its 20 rooms creates two major and immediate problems:

Delayed Sales Data: Management does not know the actual number of rooms sold today until the following morning.

Delayed Revenue Data: Management does not know the total income collected today until the following morning.

Implications of the Manual System

This lack of real-time information leads directly to confusion and loss because it prevents proactive management and introduces errors:

Lost Revenue Opportunities: If the hotel doesn't know its current occupancy, it can't quickly adjust pricing (e.g., offer last-minute discounts) or push sales for empty rooms.

Inaccurate Record Keeping: Manual entries are highly susceptible to human error, such as transposing numbers, miscalculating totals, or forgetting to log a payment, leading to discrepancies between the physical cash and the recorded income.

Inventory Control Issues: The hotel risks overbooking (selling a room twice) or under-selling (believing a room is occupied when it's not), frustrating guests and losing potential income.

Fraud Risk: The system lacks an audit trail, making it easier for employees to potentially misstate the number of rooms sold or pocket cash without immediate detection.

Our Complete Digital Solution

Online & Walk-in Booking

Guests book anytime; system updates automatically. When a guest books online, the room is marked reserved immediately.

Smart Room Management

Check available rooms instantly. Receptionists view all rooms in one dashboard and assign guests immediately.

Automatic Finance Tracking

Every booking updates income automatically. When a guest pays 250 GHS, the system adds it to today's total instantly.

Powerful Reports & Staff Accountability

Comprehensive Reports

01

Daily Report

Total income, bookings, and payment types for the day

02

Weekly Report

Identify which days attract the most guests

03

Monthly Report

Track profits, expenses, and top-performing rooms

04

Yearly Report

Review overall growth and yearly income trends

Staff Accountability

Assign individual staff accounts and monitor who handled each booking or payment transaction.

Maintenance & Support Included

Regular Updates

Software updates and automatic data backups to keep your system secure and current

Hosting Management

Complete hosting and domain management for online systems

24/7 Support

Phone and WhatsApp support available around the clock

Free Training

Complimentary staff training and system setup assistance

Our system is fully functional and available for a live demo. Book an in-person or virtual presentation to see everything in real time.

Flexible Pricing Plans

Basic Plan

300 GHS/month

- Hosting & domain included
- **GHS20 per each** successful booking
- Maintenance included

Standard Plan

500 GHS/month

- Hosting & domain included
- **GHS20 per each** successful booking
- Maintenance included

Premium Plan

800 GHS/month

- Hosting & domain included
- **GHS20 per each** successful booking
- Maintenance included
- Priority support

Save Thousands Every Month

Cost Comparison: Booking.com vs. MI460

Example: A hotel with 25 rooms, charges 250 GHS per night with 100 bookings monthly

Using Booking.com

15-25%
Commission Rate

Per booking charge

37.5-62.5
GHS Lost

Per single booking

3,750-6,250
GHS Monthly

Total commission cost

Using MI460

20
GHS Per Booking

Flat fee per booking

300
GHS Subscription

Monthly system cost

2,300
GHS Total

Complete monthly cost

🗒 **You Save Between 1,450 and 3,950 GHS Every Month!**
